Mechanisms of the Republic  
How the courts are really  
supposed to operate

## How to Restore America's Constitution

This is the government the Framers of the U.S. Constitution were working to prevent with the writing of our founding documents. While the opponents of The Constitution scream we must save our democracy, and have abandoned their 220 year claim that the courts are the final say on all that is constitutional, the truth is they've been wrong all along. Our Republic is worth saving, but it takes a tireless minority with terrible resolve to work to regain what we inherited.

I will take dangerous liberty over the safety of enslavement because as an American I have the freedom to choose for myself. Join us on Saturday to fellowship with like-minded Americans, and to hammer out the details on how we can restore our republic.

---
